NOKIA

PRESS RELEASE

February 5, 2003

**Nokia N-GageTM mobile game deck —
the revolutionary gaming experience**

MAJOR GLOBAL GAMES PUBLISHERS EXCITED TO PUBLISH ON WIRELESS MULTIPLAYER PLATFORM

Nokia today showcased its new mobile games, the Nokia N-GageTM game deck, at "Get Ready to N-Gage" events in London, UK and Sydney, Australia. The Nokia N-Gage game deck enables an enriched interactive gaming experience by introducing an innovative wireless multiplayer platform for both local and remote gaming. The Nokia N-Gage game deck allows users to play the latest high quality titles in a new way — multiplayer games connected locally via Bluetooth wireless technology or over-the-air games over mobile networks. Enabling new business models, the Nokia N-Gage is a unique platform that also provides opportunities for game developers and publishers, network operators and other service providers to generate new revenue streams and develop new games and service concepts.

“The Nokia N-Gage brings the start of a whole new gaming experience to the market, with an ergonomic design optimized for playing games. Nokia is working with world-renowned game publishers, including Activision, Eidos, Sega, Taito and THQ, and developers to provide an appealing and balanced catalogue of high quality games to the marketplace. Titles will include both the latest blockbuster games and a variety of titles across game genres,” said Anssi Vanjoki, Executive Vice President, Nokia Mobile Phones. “The game experience can further be enhanced when network operators and service providers enter the value chain by providing game related mobile services such as downloadable game levels, additional features and game characters or even running online multiplayer games and communities. With these building blocks in place, the Nokia N-Gage platform will help to unleash the creative and innovative spirit of the games industry.”

The high performance games for Nokia N-Gage game deck are sold separately on game cards (using the MultiMediaCard standard). Game card distribution enables a new kind of mobile gameplay experience with richer graphics, enhanced sound and more extensive game worlds in which to play. Nokia will also act as a game publisher to create branded N-Gage game titles and develop an evolving games portfolio.

Nokia N-Gage game deck devices and game titles will be available in major retail outlets, game-specific and video game retail outlets, as well as in regular mobile phone delivery channels in all major markets.

Nokia welcomes the games industry to publish and develop innovative new concepts for the Nokia N-Gage game deck. Game developers interested in learning more about the Nokia N-Gage game deck, including submitting information about applications for the Nokia N-Gage and other Nokia devices and platforms, can find more information at www.forum.nokia.com/games.

Besides gaming, the Nokia N-Gage mobile game deck also features a digital music player (MP3/AAC) and stereo FM radio, as well as a tri-band GSM 900/1800/1900 mobile phone. The Nokia N-Gage game deck is planned to be available in volumes across five continents in the 4th quarter 2003 well in time for the holiday shopping season.

Features:

NOKIA STOCK OPTIONS EXERCISED FOR SHARE SUBSCRIPTION

A total of 7,160,272 Nokia shares were subscribed for after the increase in the share capital registered on January 13, 2003. The shares were subscribed for with the A, B and C stock options of the Nokia Stock Option Plan 1997 issued to the key personnel of Nokia. The Stock Option Plan was approved by the Annual General Meeting of March 25, 1997.

The corresponding increase in the share capital, in total EUR 429,616.32 has been registered in the Finnish Trade Register on February 13, 2003. As a result of the increase, the share capital of Nokia is currently EUR 287,704,044.78 and the total number of shares is 4,795,067,413. Nokia received as additional shareholders' equity a total of EUR 23,105,302.71.

The new shares subscribed for entitle their holders to dividend for the first time for the fiscal year 2003. The holders of the new shares are entitled to all other shareholders' rights from the registration date, February 13, 2003. However, the new shares will be listed on the Helsinki Exchanges together with the other shares no earlier than in the beginning of April 2003. Listing of the shares will also be applied for on the Frankfurt, London, New York, Paris and Stockholm Stock Exchanges.

The subscription period for the A stock options of the Nokia Stock Option Plan 1997 began in December 1997, for the B stock options in November 1999 and for the C stock options in November 2001. Subsequently, the share subscription period began for the A stock options of the Nokia Stock Option Plan 1999 in April 2001 and for the B stock options in April 2002, for the 2001AB stock options of the Nokia Stock Option Plan 2001 in July 2002, for the 2001C 3Q/01 stock options in October 2002 and for the 2001C 4Q/01 stock options in January 2003.

The subscription period of A, B and C stock options of the Nokia Stock Option Plan 1997 ended on January 31, 2003.
